DESIGN DIVISION

This popular set is designed for the "small fry" or where the play yard isn't very large. The hardest play of the roughest youngsters can't hurt the all-steel, all-bolted construction. See-saw is made of tubular steel, equipped with saddle type seats and provided with three easy adjustments to balance large and small children. An adjustable trapeze and 2 acting bars will keep young aerial artists occupied day after day. A GYM-DANDY in the yard assures self-entertainment for active children and at the same time affords them healthy, body-building exercise.

No. 103—This small 6-play unit is the answer to a busy parent's prayer. SPECIFICATIONS: 7½' LEGS of 1¼" and 4' TOP of 1½" steel tubing; GROUND SPACE 6' x 6'; ALL CHAIN BRIGHT GALVANIZED; pieces well wrapped into TWO PACKAGES with heavy kraft paper; SHIPPING WEIGHT APPROX. 70 LBS.

No. 100—A 4-play unit exactly like No. 103 except without see-saw and stand. GROUND SPACE 5' x 6'; SHIPPING WEIGHT APPROX. 45 LBS.
